Benefits:

LIGHTING CONTROL IS SMARTER AT THE SWITCH

Accidentally turn off smart bulbs at the switch and they stop working. That can't happen with Caséta.

BULB FREEDOM

Smart lighting control at the switch means you're free to use just about any dimmable bulb.

MOST CONNECTED

Caséta works with more smart home devices than any other lighting brand, so you can add other devices and be confident that they'll play well together.

THE HUB ADVANTAGE

The Smart Bridge delivers fast, reliable control that doesn't slow down your Wi-Fi.

Features:

Scheduling

Set the lights to turn on or off at a specific time of day. Or, use our Sunset Tracker to control the lights without fail

– even when the season changes, and you gain or lose an hour.

Scenes

Control one or multiple lights at the same time by creating a scene – so you can transform a room from “Game Night” brightness to “Movie Time” mood in no time. And when it’s bedtime, turn off all the lights right from your bed.

Smart Away

Look like you’re home even when you’re not. Use Smart Away to randomly turn your lights on and off throughout the evening to give the illusion that you are home – even if you’re out for the night or away for the week.

The most connected smart lighting control brand

Caséta works with more smart products than any other smart lighting brand. That means you can smarten up your home one room at a time and easily manage all your devices as you expand.
