ACUITY CONTROLS PRODUCTS

Acuity Controls Products is the single expert source for advanced lighting controls technology, service and support. We offer one of the industry’s most extensive portfolios for indoor and outdoor lighting controls, from single rooms to campuses to municipalities.

LC&D Blue Box

One of Acuity Controls Products is the LC&D Blue Box. Blue Box is a simple, cost-effective alternative to traditional time clocks, twist timers and contactors. Available in three enclosure sizes, the Blue Box family is the ideal solution for most small- to medium-sized projects.

nLight & nLight Air

Another one of Acuity Controls Products is nLight and nLight Air. nLight is a networked digital lighting control system that provides both energy savings and increased user configurability by cost effectively integrating time-based, daylight-based, sensor-based and manual lighting control schemes. nLight creates an unmatched level of distributed intelligence.

nLight Air is a secure, high-performance wireless platform designed for integration into various lighting controls applications that seamlessly connect both indoor and outdoor lighting systems to Smart Building Ready solutions.
Benefits Include:

- Easier installation – fixture embedded smart sensor remove guesswork, saving time and money
- Industry leading 5-tier wireless security architecture
- Energy savings with occupancy and daylight sensing – up to 30% additional energy savings
- Aids in meeting and/or exceeding state and local energy codes
- A scalable and upgradeable smart building ready solution
- Choose from a wide range of nLight AIR wireless enabled fixtures from Acuity Brands

Want to learn more about Acuity Controls Products and where they fit into your commercial building control plan? Give us a call, drop an email or click here for application specs.
