LUTRON VIVE

LUTRON VIVE

Introducing a revolutionary wireless lighting control solution for new and existing commercial buildings.

Design

- Build from a full suite of products
- Combine individual fixture control and area control
- Expand the system at any time

Install

- Less wiring for faster installation as well as reduce labor time
- Push button setup or using smart device
- Start small and expand at any time

Maintain

- Monitor, adjust, and manage from any smart device
- Energy saving
- Minimize down time
- Expand capability
- Simple integration

Energy-saving strategies

control

Occupancy/vacancy sensing

- Daylight harvesting
- Time scheduling
- Demand response
- Plug load control
- High-end trim
- Personal dimming control
- HVAC integration
- System optimization service

Vive wireless solutions

- Control type support:
 - Lutron Hi-lume EcoSystem
 - 0 10V
 - Phase control
 - Switching
 - CC0
- Load type support:
 - LED
 - Incandescent/halogen
 - Fluorescent
 - MLV
 - ELV
 - CFL

Mounting options

- Wallbox mount
- Ceiling mount
- Fixture mount

Device setup

- Setup and program with Vive wireless hub
 - 1. Press and hold on wireless device
 - 2. Vive wireless hub identifies the device
 - 3. Connect the devices and program through any smart device
- Setup without a Vive wireless hub
 - 1. Press and hold wireless dimmer for 6 seconds
 - Press and hold wireless occupancy sensor for 6 seconds
 - 3. Now the dimmer is connected to the occupancy sensor
