

Sunpark BH3D 4000K Outdoor Light

Sunpark BH3D 4000K Outdoor Light. The BH3D is ideal for outdoor and indoor wet locations at multifamily, commercial, and industrial applications. This fixture is suitable for parking structures, parking awnings, breezeways, exterior walkways, and more. The fixture provides excellent light distribution and uniformity. This light source is more energy-efficient than traditional High-intensity discharge lamps or metal-halide lamps. Also, they are durable and can provide light for longer hours. This light fixture is sealed and gasketed and provides general illumination for indoor and outdoor environments where exposure to water, humidity, and dust is likely to occur. These luminaires are usually mounted on ceilings, soffits, walls, or in any other commercial and industrial building or facility where exposure to water or dust (or other elements) is a concern.
