## **Benefits:**

### *LIGHTING CONTROL IS SMARTER AT THE SWITCH*

Accidentally turn off smart bulbs at the switch and they stop working. That can't happen with Caséta.

### *BULB FREEDOM*

Smart lighting control at the switch means you're free to use just about any dimmable bulb.

### *MOST CONNECTED*

Caséta works with more smart home devices than any other lighting brand, so you can add other devices and be confident that they'll play well together.

### *THE HUB ADVANTAGE*

The Smart Bridge delivers fast, reliable control that doesn't slow down your Wi-Fi.

### **Features:**

#### *Scheduling*

Set the lights to turn on or off at a specific time of day. Or, use our Sunset Tracker to control the lights without fail – even when the season changes, and you gain or lose an hour.

#### *Scenes*

Control one or multiple lights at the same time by creating a scene – so you can transform a room from “Game Night” brightness to “Movie Time” mood in no time. And when it's bedtime, turn off all the lights right from your bed.

#### *Smart Away*

Look like you're home even when you're not. Use Smart Away to randomly turn your lights on and off throughout the evening to give the illusion that you are home – even if you're out for the night or away for the week.

#### *The most connected smart lighting control brand*

Caséta works with more smart products than any other smart lighting brand. That means you can smarten up your home one room at a time and easily manage all your devices as you expand.
