

LRF2-0WLB-P-WH – 180° Wall-Mount Occupancy/Vacancy Sensor

Lutron® wall-mounted occupancy and vacancy sensors are wireless, battery-powered, passive infrared (PIR) sensors that automatically control lights via RF communication to compatible dimming or switching devices. These sensors detect the heat from people moving within an area to determine when the space is occupied. The sensors then wirelessly transmit the appropriate commands to the associated dimming or switching devices to turn the lights on or off automatically. They combine both convenience and exceptional energy savings along with ease of installation.

LRF2-VWLB-P-WH – 180° WALL-MOUNT VACANCY (ONLY) SENSOR

Lutron® wall-mounted occupancy and vacancy sensors are wireless, battery-powered, passive infrared (PIR) sensors that automatically control lights via RF communication to compatible dimming or switching devices. These sensors detect the heat from people moving within an area to determine when the space is occupied. The sensors then wirelessly transmit the appropriate commands to the associated dimming or switching devices to turn the lights on or off automatically. They combine both convenience and exceptional energy savings along with ease of installation.

Sunpark FL2103D-62 2 Foot Vanity

Sunpark FL2103D-62 2 Foot Vanity. The FL2103D-62 is ideal for indoor applications at residential and commercial locations. This fixture is suitable for restrooms and powder rooms but can be used for other applications as well. The counter and mirror are the focal point of bathrooms and powder rooms and vanity lighting draws attention to this important spot. The slim 2 foot fixture is ideal for dry or damp locations. The fixture provides excellent light distribution and uniformity. The satin nickel finish is also available with Sunpark's ceiling mounted, pendant lights and wall sconces, so the aesthetic of your home between rooms will be cohesive. Installation is traditional, quick and easy.

Features

Housing: Die-formed Cold-rolled Steel

Finish Option: -62 Satin Nickel

Optical Shade: High Transmission Acrylic Create Excellent Light Distribution and Uniformity

LED: High Efficiency, High CRI, Binned and Mixed to Reach Uniform Light

Electrical: High Power Factor, Low THD

LED Type: Built-in (Color Temperature Option – 3000K)

LED MCT Type: Multiple Color Temperature – 3000K, 3500K, 4000K

Certification: UL/cUL, ETL/cETL Listed, Suitable for Damp Locations, Energy Star

Warranty: 5 Years Warranty on Driver and LED Module

Wattstopper WS-250 PIR WALL SWITCH OCC SENSOR

Wattstopper WS-250 PIR WALL SWITCH OCC SENSOR. This is the passive infrared wall switch occupancy sensor. The WS-250 Passive Infrared (PIR) Wall Switch Sensor turns lighting on and off based on occupancy and ambient light level. It replaces existing wall switches and fits behind a standard decorator wall plate.

The WS-250 utilizes advanced PIR technology to detect occupancy. Detection occurs when the WS-250 senses the difference between infrared energy from a human body in motion and the background space. Lighting automatically turns on when occupancy is detected. After a user-specified length of time when no occupancy is detected, lighting automatically switches off. The sensor can also be used with line voltage switches for multi-level lighting.

Features

- Pulse Count Processing eliminates false offs without reducing sensitivity
- Detection Signature Processing eliminates false triggers; provides immunity to RFI and EMI
- Zero crossing circuitry reduces stress on the relay and results in increased sensor life

- Time delay adjustment from 30 seconds up to 30 minutes
- Adjustable unit sensitivity from 20% to 100%
- Light level sensor holds lights off when ambient lighting is above the preset level
- Custom two-tier Fresnel lens enhances detection at the desktop level
- Sensor coverage tested to NEMA Guide Publication WD 7-2000
- Patented voltage drop protection
- For safety, there is no leakage to load in the off mode and sensor is safety grounded
- LED indicates occupancy detection
- Compatible with decorator wall plates
- BAA/TAA-compliant models available
