WattStopper FSIR-100 — WIRELESS HANDHELD CONFIGURATION TOOL

This is the wireless handheld configuration tool. Installers and end users can use the FSIR-100 for initial setup and subsequent sensor adjustment to ensure conformity with design intent. It simplifies changes to sensor settings by making the adjustment process ladder-free. It is compatible with IR-enabled Wattstopper HBP and FSP sensors. These products are ideal for use in parking facilities, gas station, pedestrian pathways and warehouse. **Check out Wattstopper DLM products here.**

- Establishes high and low mode light levels for 0-10V control
- Sets time delay, cut off time and sensitivity for motion detection
- Enables light level settings for either hold off control or daylighting control
- Initiates automatic setpoint configuration
- Allows ramp up and fade down rate adjustments
- Locks sensor settings to prevent unauthorized changes
- This product meets the materials restrictions of RoHS
