

VIVE by LUTRON

LUTRON VIVE

**Affordably code compliant • 70%
faster construction • End user
satisfaction**

Whether you are responsible for design, installation or maintenance, VIVE is the sustainable commercial lighting control system that empowers you to make the right decisions to save time and labor *and* meet code requirements so you can build faster, more profitable commercial projects

Estimating

LITE RITE'S Lighting Control Freaks use Lutron's software to estimate and design code compliant commercial lighting control systems in record time. Send us your plans by [clicking here](#) and we'll provide you with a free estimate, bill of material, layout and spec sheets – all in 24-48 hours.

Construction

Since Lutron VIVE is a wireless lighting control solution, installation time is 70% faster than wired control solutions. And with stocked product at distribution, your projects go faster. VIVE is simple to design and offers flexible, code-compliant solutions for both new construction and retrofit projects.Programming

Programming is quick and easy with Lutron's world-class browser-based application. Program quickly by just using your phone and with step-by-step instructions. Changes are easy to

make by adding or moving wireless components without rewiring.

End User

Changes to a project are nearly inevitable once the space starts seeing some use. Add controls and sensors with ease. Diminish the complexity of service calls by empower the building manager to change scene programming and tweak the system to tenants' needs.

Flexible and Scalable

Vive's flexible scalability allows you to start with one area and grow over time, helping projects move through phases quickly and affordably.
